Palomar Mountain Residential Timeline

Peter Brueggeman, 2015

This Palomar Mountain residential timeline compiles names from U.S. Census records, San Diego County voter registers (ancestry.com has San Diego county voter registers through 1944), & other sources like San Diego city/county directories, all accessed via ancestry.com. Names are listed by first appearance & last appearance. It's imprecise; people could be living on Palomar before and/or after those years**. These listings are for head of household and/or voters; it isn't comprehensive for women & children & household help & boarders listed in the censuses, nor for women before suffrage.** Voting & census residence names for Palomar Mountain residents vary over the years, perhaps due to registration practice, lack of established placename, & multiple residences. Palomar-specific placenames appear infrequently in earlier years; it is difficult to tell from census & voting records whom lived on Palomar Mountain. The boundary history for a Palomar voting precinct, when there was one, is unknown to the author, & may extend down mountain to its base; some people listed did live off Palomar Mountain, such as Jose Trujillo.
